What is HP Instant Ink

HP Instant Ink is a subscription-based service offered by Hewlett-Packard (HP) that allows you to receive ink cartridges for your HP printer automatically. When you enroll in the service, HP will monitor your printer's ink levels and automatically send you new ink cartridges before you run out.

The service works on a monthly subscription basis, with different plans based on your printing needs. You can choose from plans that allow you to print a certain number of pages per month, with unused pages rolling over to the next month, or plans that allow you to print unlimited pages for a fixed monthly fee.

The service is designed to save you time and money, as you no longer have to worry about running out of ink or purchasing new cartridges. It also ensures that you always have high-quality ink for your printer, as the cartridges are specifically designed for use with HP printers.
